Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 12/15/2003 have been fully considered but they are not persuasive.

Regarding claims 9, 17, 25, the applicant stated that Smith does not teach or disclose "the second message being coded with a new cipher key as an acknowledgement of the cipher key change by the terminal". In response to this, the examiner points to column 3, lines 47-50 where Smith clearly teaches the preceding limitation.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 9-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith (U.S. Patent No. 5,146,498).

Regarding claims 9-14, 17-22, 25-27, Smith teaches a wireless network, comprising: a radio network controller (col. 3, line 22); and a terminal, wherein said radio network controller is operable to transmit a first message to said terminal, the first message being indicative of an initiation of a cipher key change (col. 3, lines 19-22), and wherein said terminal is operable to transmit a second message to said radio network controller subsequent to a reception of the first

message by said terminal, the second message being coded with a new cipher key as an acknowledgement of the cipher key change by said terminal (col. 3, lines 43-50, lines 58-62).

Regarding claims 15-16, 23-24, 28, Smith teaches the wireless network of claim 9, wherein said radio network controller is operable to transmit a third message to said terminal subsequent to a reception of the second message by said radio network controller, the third message being indicative of a failure by said radio network controller to decipher the second message with the new cipher key (col. 3, line 67 – col. 4, line 8).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
